## 2.Appearance and Components

---

### 3.Loading the paper roll

---

1.Face the front of the printer, press the top cover button in the direction of the arrow, and lift the top cover up. (The arrow diagram is shown below).

2.If there is a paper roll in the paper compartment, please take it out.

3. Load a paper roll to the paper holder, making sure the roll is placed in the right direction.

The heat-sensitive side faces outward

The heat-sensitive side faces inward

### 3.Loading the paper roll

---

4.When printing a 58mm paper roll, place the jammer into the paper bin recess first, then place the paper roll into the paper bin in the direction described in step 3.

5.Pull a section of paper out of the printer and close the cover.

Warm tip: After power on, open and close the paper bin cover, the cutter will automatically remove excess paper.

## 4.Power Connection

---

- 1.Make sure the power switch is at the Off position.
- 2.Connect the power adapter to the printer.
- 3.connect the power cable to the power adapter.
- 4.connect the other end of the power cord to a nearby outlet.

## 5. Paper Jam Handling

1.in the event of a paper jam or knife jam, remember not to open the top cover of the paper bin to avoid damage to the cutting knife.

2.with hands while clasping the arrow on both sides of the convex bar, push and pull upward, open the cutter on the cover.

3.Please toggle the gear in the direction of the yellow arrow on the cutter film until the blade returns to the correct position, as shown in Figure (2).

Note: Before returning the cutting knife, please cut off the power.

When the knife is stuck, the cutter is not retracted, the cutter diagram (1) can be seen

The cutter is completely retracted, the cutter diagram (2) cannot be seen
